DIARY NOTES

25X1A

DD/S [REDACTED] *[Signature]*

4 October 1963

1. I met with [REDACTED] to discuss the study which they are preparing to show what we are doing for ourselves and what we are doing for others. [REDACTED] who had conducted the study up to this point, had not approached the problem in this way and is going to have to start over again. (I think, however, that we are on the same wave length this time.)

2. I had a very friendly talk with Dr. [REDACTED] who is going to resign as Chief of our Psychiatric Staff in mid-October. He appeared to be well-disposed toward the Agency and said that he would be very happy to help us in any way he could after his departure. He believes that we have by all odds a better selection program than anyone else in Government or in industry. He said, however, that by spending another \$5,000 to \$10,000 per annum to buy some machine time we should have a much better program. (I want to follow up on this with John Tietjen.)

3. [REDACTED] who is going to be Chief of Base at [REDACTED] was in to say good-bye. (I think that he will do a good job there.) He is leaving his wife and family in Washington and hopes to have them join him sometime later. If they cannot do this, he hopes to find some way to get back here for his daughter's wedding next summer.

4. I received a telephone call from [REDACTED] who conveyed a message to me from Mr. Kirkpatrick to the effect that the Director was most unhappy about the air conditioning and heating systems in the building and wanted to know what we could do about it.
